# Thermapen® ONE

The World's Only ONE-Second Cooking Thermometer

**NEW Full Readings in ONE Second**

Powered by new advances in thermodynamics, Thermapen ONE delivers a blistering 1-second response time.

**NEW Accurate To Half A Degree**

The accuracy spec has also improved to an industry-leading degree.

**Motion-Sensing Sleep & Wake Mode**

Ready to use when you pick it up, and turns off when you set it down.

**NEW Brighter, Ultra-Responsive Automated Backlight**

Easier to read in dim light and faster response time to ambient light changes.

**NEW 5-Year Warranty**

Trust Thermapen ONE to outlast the "competition" with years to spare.

**Waterproof to IP67**

Durable build and enhanced design to keep out water and dust.

**Biomaster Silver Ion Technology**

A silver-based additive providing maximum antimicrobial protection for the life of the product.

**NEW Easy-to-Access Battery Compartment**

It's even easier to change your user settings.

Thermapen®

**NIST-Traceable Calibration Certificate**

The performance of your Thermapen ONE is verified traceable to national standards.

**Patented Auto-Rotating Display**

Always reads right-side-up, no matter how you're holding it in either hand.
