Senses which way is up and rotates in 90° increments

Backlit Display

Push button backlit display to read in low-light conditions

RIGHT HANDED

Designed in Utah by ThermoWorks

Big, Bold Display

Huge 1 1/4-inch diameter display for readings at a glance

Accuracy

Twice as accurate, now $\pm 1^\circ\text{F}$ ($\pm 0.5^\circ\text{C}$)

Wide Range

Range from -58 to 572°F (-50 to 300°C) for a wide range of applications

Available in 9 colors

LEFT HANDED

Convenience

Color-matching sheath protects probe when not in use and fits in chef coat pocket

Speed

Super-Fast[®] readings, now in just 2-3 seconds!

Easy-Grip Head

Durable housing with grippy rubber strip

Waterproof

Redesigned molded-in seals, now waterproof (IP67 rated)

UPSIDE-DOWN

Unrivaled Performance

With a new Super-Fast tip taking full readings in just 2-3 seconds and accurate to $\pm 1^\circ\text{F}$ ($\pm 0.5^\circ\text{C}$), ThermoPop 2 provides unrivaled performance for an inexpensive instant-read.

Built for Food Service

Everything about ThermoPop 2 is built to survive and thrive in the demanding world of commercial food service—from its huge at-a-glance auto-rotating display to its new IP67 waterproof rating.

NIST-Traceable Calibration

Now ThermoPop 2 is NSF approved and each unit includes its own NIST-traceable calibration certificate verifying its accuracy to national standards. Measure temperatures with complete confidence.
