

- -58 to 572°F Range
- Dishwasher Safe to 190°F
- IP65 Water Resistant
- On/Off Switch
- Max/Min Memory
- °C/°F Switchable
- Includes Pocket Clip

Specifications

Measuring Range	-58 to 572°F (-50 to 300°C)
Accuracy	±1.8°F (±1°C) between -3.8 to 247.8°F (-19.9 to 119.9°C) ±3.6°F (±2°C) between -58 to -4°F (-50 to -20°C) and 248 to 572°F (120 to 300°C)
Display Resolution	0.1°
Response Time	Approximately 15 seconds from ambient to 200 or 32°F
Display Size	0.35 H x 0.71 W inches (18 W x 9 H mm)
Water Resistance	IP65
Digit Size	0.28 H x 0.14 W inches (3.5 W x 7 H mm)
Probe Size	0.28 dia. x 4.8 L inches (3.5 dia. x 122 L mm)
Minimum Immersion	Approx. 0.25 inch (6.4 mm)
Battery	1.5 volt, type A76 (LR44) or equivalent x 1 piece (included); 2,000 hours continuous operation
Product Size	7.9 H x 0.9 W x 0.8 D inches (203 H x 24 W x 20 D mm)
Operating Range	32 to 190°F (0 to 88°C)

Instrument Operation

Press the ON/OFF button to activate the thermometer. The unit will remain in the ON position until switched off by the user. Insert the stainless steel probe about 1 inch (25 mm) into the object to be measured. The measured temperature will be shown on the LCD display.

To Select °F or °C

Press the °C/°F button on the back of the thermometer to select the desired temperature unit.

Using MIN-MAX

Press the MIN-MAX memory button to read the last highest / maximum temperature measured.

Press once more to read the last lowest / minimum temperature measured.

Press once more to return to normal display.

Press and hold the button for about 3 seconds then release to reset the memory.

MIN and MAX are reset when the unit is powered off.

Battery Installation

Replace the battery if the LCD display becomes dim.

Replace with 1.5 volt, type A76 or equivalent.

Use a screwdriver of suitable size to open the battery cover on the back.

Install the battery observing the correct polarity.

Close the battery cover.

Care and Cleaning

Clean the probe immediately after each measurement to avoid cross contamination.

If there is erratic operation, press the RESET button on the back of the thermometer.

Do not expose the entire thermometer to temperatures over 190°F (88°C).

Do not leave inside ovens. Not submersible.
