

ThermoWorks

Thermapen® ONE Blue

HACCP Bluetooth Thermometer With Enhanced Checklist Display

Waterproof Housing

Fully sealed IP67 waterproof, designed for daily commercial kitchen use, outlasts all competitors

Foldaway Probe

4.3-inch stainless steel probe folds away to protect probe from damage, lowers overall cost of ownership

ONE Second Readings

Full readings in ONE second eliminates waiting, speeds up line checks*

Auto-rotating Display

For left- or right-handed use, 180° auto-rotating display is always right side up for more accurate temp taking

Polygiene Biomaster

Antimicrobial additive prevents bacteria growth on housing surface

Enhanced Checklist Display

Displays item, high and low limits and PASS/FAIL results so food safety problems can be fixed immediately, a Food Safety Game Changer!

Ultra-high Accuracy

Super high accuracy to $\pm 0.5^{\circ}\text{F}$ ($\pm 0.3^{\circ}\text{C}$), 4 times the Food Code requirement

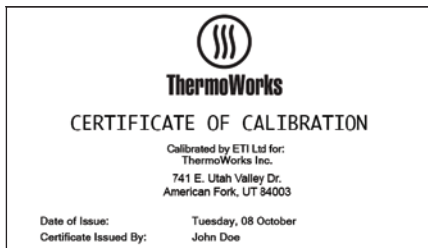

Long Battery Life

Up to 500 hours with unique power saving features, includes common AAA battery, 1-year typical use

Connects to Most Smart Devices

Store and archive daily HACCP readings via mobile apps. Integrates with most food safety software providers.

NIST-Traceable Calibration Certificate

Each Thermapen ONE Blue is individually calibrated against metrology standards and includes a NIST-traceable certificate of calibration, so you know it's accurate right out of the box.

*Temperature readings displayed on a connected Bluetooth® device may take 1–2 seconds due to transmission rate and software processing.

ThermoWorks

Thermapen® ONE Blue

Bluetooth® Probe with Enhanced Checklist Display

Stop Food Safety Issues Before They Start

Clear Label

View each item being measured on the probe's display

Battery Indicator

Know when to replace batteries with an easy-to-see power level

Connection Confirmation

Shows a reliable link to your smart device for uninterrupted tracking

Pass/Fail Alerts

Instant feedback helps staff correct food safety issues before they escalate

High/Low Limits

Front-line staff can make informed food safety decisions with real-time guidance
