

ThermoWorks

ThermoPop®

Available in 9 colors

Rotating Display

The first rotating display pocket thermometer! A simple button press rotates the display in 90° increments. Hold it in either hand, or read it when it's upside down.

Molded-in Seals

Durable construction outlasts similarly priced pocket thermometers. Molded-in seals and buttons protect it from kitchen spills and splashes.

Easy Operation

Simple operation reduces user errors. °C-°F switchable. Button on the back rotates digital display. A CR2032 lithium coin battery ensures up to 5,000 hours of battery life.
