

ThermoWorks

ProNeedle™

Ultimate Professional Pocket Digital Thermometer

Super-Fast® and Accurate

3-inch long needle probe is accurate to $\pm 0.9^{\circ}\text{F}$ (0.5°C) in 3-4 seconds. Measure both thick and thin food portions.

Backlight

Press the Backlight/Power button to enable the backlight. Backlight will turn off after 10 seconds to save battery.

Hold

Hold button will freeze display at its current reading.

Max/Min and °C/°F

ProNeedle will save maximum and minimum temps. Temperatures reset when ProNeedle turns off. Switch between Celcius and Fahrenheit.

Smart Display

180° auto-rotating display intuitively flips right side up in either hand.

Included protective sheath for safe storage.

Calibration Trim

ProNeedle should never need to be calibrated, but can be trimmed at a single point for higher accuracy.

Compact

Designed to fit in your chef coat pocket, ProNeedle is always within reach.
